Young Dev

Lahore

07/2024 - Present

Lahore

Responsibilities of a Junior Front-End Developer

- Design and Development:** Assist in designing and developing user-friendly and responsive web interfaces using HTML, CSS, and JavaScript.
- Code Maintenance:** Maintain and update existing codebases, ensuring clean and efficient code structure.
- Collaboration:** Work closely with UX/UI designers, back-end developers, and other team members to create seamless user experiences.
- Bug Fixing:** Identify and fix bugs in a timely manner, ensuring smooth functionality across different browsers and devices.
- Testing:** Conduct thorough testing of web applications to ensure quality and performance standards are met.
- Learning and Development:** Stay updated with the latest front-end technologies, frameworks, and best practices, continuously enhancing your skill set.
- Documentation:** Write clear and comprehensive documentation for code and processes to ensure knowledge sharing within the team.
- Feedback Integration:** Incorporate feedback from senior developers and stakeholders to improve and refine web projects.
- Version Control:** Utilize version control systems like Git for efficient code management and collaboration.
- Optimization:** Optimize web applications for maximum speed and scalability, enhancing overall user experience.
